- Work permit (Spain)

ABOUT ME

Enthusiastic Fullstack Web Developer specializing in React, Next.js, JavaScript, and TypeScript, with a solid foundation in Node.js, Nest.js, SQL/NoSQL databases, and REST API integration. With 10 years of experience working at sea, I have improved my communication skills, responsibility, stress tolerance, attention to detail, and proficiency in English. I am currently seeking a position as a Junior Fullstack Developer to continue creating efficient web projects, grow in the field of Web Development, and contribute to the success of the company by aligning with its objectives.

PROJECT EXPERIENCE

LiveDocs   GitHub Repository   **(Next.js, TypeScript, Liveblocks, Shadcn)**

This real-time application, created with Next, TypeScript, Clerk authentication, and Liveblocks, allows users to create documents, share them with friends or team members, and collaborate on text and comments. The creator can manage viewing or editing permissions. Changes are reflected in real-time, and users receive notifications for invitations. They can register using Google or GitHub accounts.

E-Pharmacy   GitHub Repository   **(React.js, Node.js, Express.js, MongoDB)**

E-Pharmacy - is individual fullstack project. Backend was created with Node.js, Express.js and MongoDB. Frontend part is admin dashboard which was created with React.js and JavaScript. Authorisation use JWT-tokens. Admin from dashboard can add new supplier, new product, edit them , delete and filter.

Solidaria Media   GitHub Repository   **(Next, Next-Auth, MongoDB, CSS3)**

Solidaria Media App - fullstack web app for translation radio, TV, show latest video from Youtube. Admin can add or delete video from dashboatd. Admin authentication was created with Next=Auth. Api was created with SSC of Next.js 14.

PetLOve   GitHub Repository   **(React, Redux, JavaScript, Axios)**

PetLOve - app for search new house for pets and animals. User can register, create pet cards, change avatar and private data.

LearnLingo   GitHub Repository   **(React, Firebase, JavaScript)**

LearnLingo - app for search language tutor with filters and user authentication. Pet-project created with React and Firebase (Authentication & Real-time DB).

DrukArmy   GitHub Repository   **(Next.js, i18n, CSS3, React, JavaScript)**

DrukArmy - Free 3D-printing for military personnel, registration of printers, and donor contributions to support the project, project categorization, and effective use of donations. My sections: Header, Footer, Main Page, Terms Page, 404 Page, i18next-multilanguage, switcher dark/light, mobile menu, modals for videos and createdBy.

Drink Master   GitHub Repository   **(React, JavaScript, Node.js)**

Application for creation Custom Recipes of drinks and cocktails. My sections: Frontend - Header, Switcher dark/light, Popular Drinks, React Routes; Backend - routes /users/update and /drinks/popular with Swagger docs.

BookShelf   GitHub Repository   **(HTML, CSS, JavaScript, Vite, API, Firebase)**
Pixabay Gallery   GitHub Repository   **(React, JavaScript, CSS, Axios, API)**
Simply Chocolate   GitHub Repository   **(HTML, CSS, JavaScript, Swiper)**
Focus Frame   GitHub Repository   **(HTML, CSS, JavaScript, Swiper)**
